MINUTES Regular Meeting

July 5, 2022

CALL TO ORDER AND PLEDGE OF ALLEGIANCE

The meeting was called to order at 7:00 p.m. by President Brooks who led the Pledge of Allegiance.

2. ROLL CALL: Directors Brooks, Gonzales, Redmon, and Stassi were present. Director Bumpass participated via Zoom video conference.

OTHERS PRESENT

General Manager Joe Barget, Operations & Maintenance (O&M) Manager Mike Garner, Administrative Services (AS) Manager Cynthia Allen, and Board Secretary Stephanie Garner.

3 ADDITIONS AND DELETIONS TO THE AGENDA

There were none.

4. PUBLIC FORUM

President Brooks invited public comments and there were none.

5. OPERATIONS REPORT

O&M Manager Garner reported the District pumped 39.8 million gallons of water for June with an average daily demand of 1,326,000 gallons. This is 10 percent less than last year. Vandenberg Village received no rain in May and June keeping the total for the year at 2.35 inches.

The Well levels (below ground surface) for June were 1B-144', 3A-146', and 3B-138'.

Fisher Pump completed repairs to Well 3A. The field crew placed it back online June 4 and it is working great.

O&M Manager Garner showed pictures of RL Johnson Construction and the District's field crew working together to install new Lift Station #2. The lift station is operational and online the week of May 16.

Coating Specialists and Inspection (CSI) inspected all four water tanks last month. Some minor warranty work was found and will be performed by Crosno Construction. Tanks 5A and 5B will need some interior roof repairs in the next two years.

The field crew had four service line repairs and two polybutylene repairs in May and June. There were no sanitary sewer overflows to report in either month.

To conclude his report, O&M Manager Garner said the District had two anniversaries in May and June. Tina McManigal celebrated 22 years on May 30 and Patty LeCavalier celebrated 19 years on June 2.

6. ADMINISTRATION REPORT

AS Manager Allen attended Special Districts Legislative Days in Sacramento May 16-17. The capitol building was under renovations, so some of the legislators came to the Sheraton to speak with the attendees.

To conclude her report, AS Manager Allen distributed information to the Directors regarding legislative updates at the state and federal levels, and case study presentations from districts.

7. CONSENT CALENDAR

- A. Minutes from the Special Meeting on May 4, 2022
- B. Treasurer Report
 - 1) Financial Statements

- 2) Disbursements through June 30, 2022
- C. Remote Teleconference Meetings

Motion by Director Redmon, seconded by Director Bumpass to accept the consent calendar as presented.

Roll Call:

Ayes: Directors Brooks, Bumpass, Gonzales, Redmon, and

Stassi

Noes: None Abstain: None Absent: None

8. ACTION ITEMS

A. Sewer System Management Plan (SSMP)

Motion by Director Stassi, seconded by Director Gonzales to approve and re-certify the updated SSMP.

Roll Call:

Ayes:

Directors Brooks, Bumpass, Gonzales, Redmon, and

Stassi

Noes:

None

Abstain:

None

Absent:

None

B. Emergency Response Plan (ERP)

AS Manager Allen gave an overview of the updated version of the ERP. A copy was provided to each Director and all members of staff.

C. Lompoc Regional Wastewater Reclamation Plant (LRWRP)

Motion by Director Redmon, seconded by Director Stassi to adopt Resolution 224-22 and continue collecting the LRWRP Upgrade Charges on the annual county tax roll for Fiscal Year 2022-2023.

Roll Call:

Ayes: Directors Brooks, Bumpass, Gonzales, Redmon, and

Stassi

Noes: None Abstain: None Absent: None

D. Drought

General Manager Barget said the State Water Resources Control Board has no mandates for small water districts at this time; however, urban water suppliers are placing restrictions on their water usage and on golf courses that do not use recycled water. After some discussion General Manager Barget suggested putting the eight mandatory water restrictions the District has used in the past on the next meeting agenda for consideration.

9. REPORTS

A. Committees

The Water/Wastewater committee met on June 21, 2022 and discussed the SSMP.

B. District Representatives to External Agencies

Nothing to report.

C. President

President Brooks complimented staff on strength and leadership. The \$2.5 million Floradale Bridge Project may have cause for the District to increase rates next year.

D. General Manager

General Manager Barget said the upcoming election candidate filing period is July 18 to August 12.

The Santa Barbara CSDA dinner meeting has Edgar Dymally, Senior Environmental Specialist with the Metropolitan Water District Southern California speaking on July 25.

To conclude his report, General Manager Barget said the Annual Audit will be August 23-24.

10. INFORMATIONAL CORRESPONDENCE

US Drought Monitor: California, June 28, 2022

11. DIRECTORS FORUM

Director Bumpass thanked AS Manager Allen for the updated ERP.

Director Redmon would like a long-range capital improvement plan completed before considering a rate increase. He announced that he will not be running in the upcoming 2022 election.

Director Stassi said he believes the District may have too much in reserves.

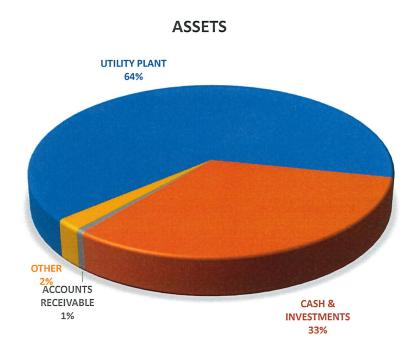

12. ADJOURN

President Brooks declared the meeting adjourned at 8:35 p.m.

VANDENBERG VILLAGE COMMUNITY SERVICES DISTRICT

AGENDA MEMORANDUM

TO:

Board of Directors

ITEM: 8.A

FROM:

Joe Barget, General Manager

Cynthia Allen, Administrative Services Manager

Mike Garner, Operations & Maintenance Manager M/

DATE:

September 6, 2022

SUBJECT: Drought

Recommendation: Consider and discuss three alternative approaches the District could take in response to the drought:

- 1. Continue to promote the District's Water Conservation Program. Do not take any further action at this time but consider it next spring if the drought persists through the winter.
- 2. Approve mandatory water restrictions.
- 3. Adopt an emergency water conservation ordinance with fines and penalties.

Policy Implications:

- On April 12, May 10, July 8, and October 19, 2021, Governor Newson proclaimed states of emergency across all counties in California due to extreme and expanding drought conditions.
- On July 13, 2021, the Santa Barbara County Board of Supervisors proclaimed a local emergency caused by drought conditions.
- On March 28, 2022, Governor Newsom issued Executive Order N-7-22 in response to the severe drought.
- On May 24, 2022, the State Water Resources Control Board (SWRCB) adopted a statewide emergency water conservation regulation in response to Executive Order N-7-22.

- VVCSD Code of Ordinances § 2.3.2.3 (Waste of Water) allows the District to discontinue service for the negligent or wasteful use of water. Ordinances do not currently authorize fines or other penalties.
- The District established its Water Conservation Program in 1996 and expanded it over time. The Board adopted the latest version in 2014.

Resource Impacts:

- About 60 percent of total water usage in the village is outdoors. Irrigation restrictions reduce water use and, in turn, water revenue.
- Additional staff time would be involved in educating and enforcing Mandatory Water Restrictions. Significant staff time and legal counsel support would be required to prepare and enforce an emergency water conservation ordinance.

Alternatives Considered: Stated above.

Discussion: At the July 5 board meeting, Director Bumpass suggested the Board should consider measures that could be taken in response to the drought.

Drought and Water Sources

The current California drought started in February 2020, when drought conditions first appeared in nearly 10% of the state. By May 2021, drought conditions existed in 100% of the state. The entire southwest US is now experiencing drought. In California, agencies that rely on surface water from the State Water Project, Central Valley Project, and Colorado River are facing severe water shortages.

None of the three agencies in the Lompoc Valley—VVCSD, Mission Hills Community Services District (MHCSD), or Lompoc—receive any surface water. All pump groundwater from the Lompoc Groundwater Basin, which is included in the greater Santa Ynez River Valley Groundwater Basin. VVCSD and MHCSD pump about 2,000 AFY from the Lompoc Upland subbasin (sometimes referred to as the <u>lower</u> aquifer) whereas Lompoc pumps about 5,400 AFY from the Lompoc Plain subbasin (sometimes referred to as the <u>upper</u> aquifer).

The capacity of the Lompoc Upland subbasin is 400,000 acre-feet (AF). According to the 44th Annual Engineering and Survey Report on Water Supply Conditions of the Santa Ynez River Water Conservation District, published by Stetson Engineers, the "accumulated dewatered storage" or empty volume in this aquifer increased by 700 AF (from 36,700 to 37,400 AF) from 2020-21 to 2021-22. This is small relative to the total volume in the aquifer. When full, nearby Lake Cachuma holds 192,978 AF so the Lompoc Upland subbasin is roughly equivalent to "two Lake Cachumas" of groundwater. Whereas Lake Cachuma (a smaller reservoir serving a large population) is at 37% capacity, the Lompoc Upland (a larger reservoir serving a relatively small population) is holding at 90% capacity.

Water Agencies - Sizes, Requirements

California generally divides water agencies into two categories:

- 1. **Urban Water Suppliers** More than 3,000 connections or more than 3,000 acre-feet per year (AFY). There are 436 of these in California. Examples: Lompoc, Goleta Water District.
- 2. **Small Water Suppliers** Fewer than 3,000 connections and less than 3,000 AFY. There are about 2,600 of these in California. Examples: VVCSD, MHCSD, Buellton.

Executive Order N-7-22 is mainly directed at urban water suppliers. It requires them to implement Level 2 (20% reduction) of their Water Shortage Contingency Plans, regardless of their actual water situations. The SWRCB's statewide emergency water conservation regulation was similarly aimed at urban water suppliers; however, it imposes an across-the-board, statewide ban on using potable water to irrigate "non-functional turf" at commercial, industrial, and institutional sites. Non-functional turf is defined as turf that is solely ornamental and not regularly used for human recreational purposes or civic or community events. It specifically excludes parks and sports fields.

The SWRCB emergency water conservation establishes a fine of up to \$500 per day for using potable water to irrigate non-functional turf at commercial, industrial, and institutional sites.

Lompoc, MHCSD

As explained above, the SWRCB emergency water conservation regulation requires Lompoc to implement Level 2 of its Water Shortage Contingency Plan. The city prohibits landscape irrigation between 10:00 a.m. and 4:00 p.m. but does not limit the number of days per week. A complete list of the city's No Water Wasting Restrictions is available at the following link:

https://www.cityoflompoc.com/home/showpublisheddocument/35524/63793 9906861930000

MHCSD does not currently have any drought restrictions.

The attached Mandatory Water Restrictions are offered for consideration. They are similar to those that the Board approved in June 2015, in response to the last, 2012-2016 drought. The only significant difference is the 2015 restrictions limited irrigation specifically to Wednesdays and Saturdays. This proved difficult for many customers to reschedule their landscaping contractors and resulted in requests for exceptions. The city of Lompoc, which had the same Wednesday-and-Saturday restrictions during the last drought, experienced problems with their water treatment plant handling the dramatic fluctuation in daily water demand that resulted. Lompoc staff indicated that if the city were to restrict irrigation to two days a week in the future, they would not specify days so as to avoid the dramatic fluctuation in water production they experienced last time.

Attachment: Draft Mandatory Water Restrictions, dated 9/22

Effective September 6, 2022, VVCSD Mandatory Water Restrictions consist of:

- 1. Irrigation is only allowed before 10:00 a.m. and after 4:00 p.m., and no more than two days a week (customers select which days).
- 2. Overwatering so that water flows onto adjacent properties, non-irrigated areas, walkways, roads, and driveways is to be avoided.
- 3. Irrigation during and within 48 hours following measurable rainfall is prohibited.
- 4. Potable water is not to be used to clean outdoor hard surfaces, with exemptions for dangerous substances and commercial steam cleaning.
- 5. All water leaks must be fixed as soon as possible after notification by VVCSD.
- 6. A shut-off nozzle is required when washing a vehicle.
- 7. Restaurants may only serve water to customers when they request it.
- 8. Hotels must offer their guests the option of not having their linens and towels laundered daily.

Exceptions:

- 1. Potable water may be used to irrigate trees throughout the week, on an as-needed basis. Deep soaking with a hose is preferred.
- 2. Potable water may be used to prepare athletic fields before athletic contests for health and safety, throughout the week, on an as-needed basis.
- 3. Potable water may be used for new construction between the hours of 10:00 am and 4:00 p.m., throughout the week, per agreement between VVCSD and the developer.
- 4. Other exceptions as approved by the General Manager.

Enforcement:

- 1. VVCSD Ordinance §2.3.2.3. allows the District to discontinue water service, after 48 hours notice, to any premises practicing negligent or wasteful use of water.
- 2. The State Water Resources Control Board may impose a fine of \$500 per day for using potable water to irrigate "non-functional turf" at commercial, industrial, and institutional sites.

AGENDA MEMORANDUM

TO:

Board of Directors

ITEM: 8.B

FROM:

Joe Barget, General Manager

Mike Garner, Operations & Maintenance Manager

DATE:

September 6, 2022

SUBJECT: Pickup Truck

Recommendation: Approve the purchase of a new, gas-powered Ford F150 Super Cab pickup truck for \$46,827 from Downtown Ford in Sacramento.

Policy Implications:

- The California Multiple Award Schedule (CMAS) program was established in May 1994 and incorporated in Public Contract Code §§ 10290 et seq. and § 12101.5.
- VVCSD Code of Ordinances § 1.6.1.3 requires Board approval for contracts and purchases exceeding \$25,000.
- Goal #14 (Vehicles & Equipment) of the District's Strategic Plan is to systematically replace vehicles and equipment needed to support the District's operations. The District generally replaces its pickup trucks every 8-10 years.

Resource Impacts:

- There is \$45,500 in the FY 2022-23 Capital Budget for this item so the purchase will slightly exceed that figure. Inflation has skyrocketed since the budget estimate was prepared.
- This truck will replace a 2014 Ford F150 pickup truck that is fully depreciated (7-year useful life) with a salvage value of \$3,121.

Alternatives Considered: Purchase the fully electric (Lightning Pro) version of this truck for \$58,160 and purchase a charging unit for approximately \$2,000.

Discussion: This truck is a scheduled replacement for the Operations & Maintenance Manager's assigned vehicle. His truck is now eight years old: a 2014 model with 60,800 miles in fair condition.

There are four Ford pickup trucks in the District's fleet, one for each member of the field crew. All trucks must be capable of towing the Harben Jetter, portable standby generator, and other items of equipment that are often required when responding to emergencies.

At the direction of the Board, staff investigated electric and hybrid trucks, as well as grant fund opportunities. Staff discovered the following:

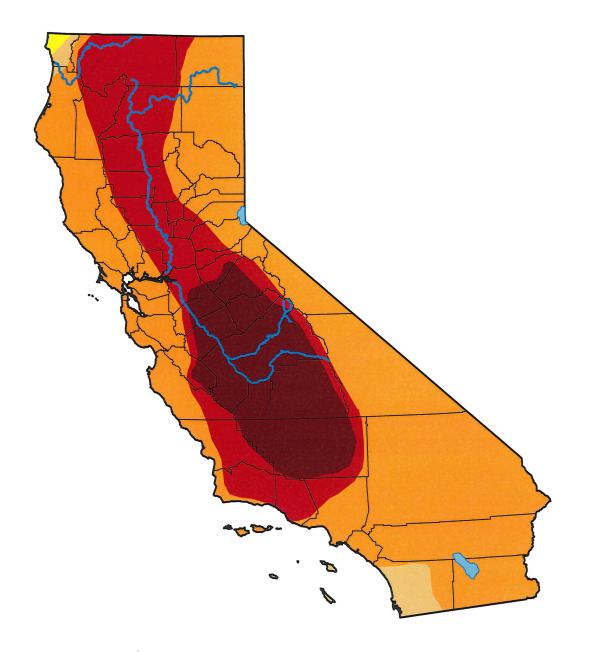

- 1. The electric version of this Ford truck, the Lightning Pro, is considerably more expensive. It would also require the additional expense of purchasing and installing a charging unit(s). This vehicle is usually parked at three different locations: the District office, Well Site 1, and the employee residence.
- 2. The towing capacity of electric trucks is significantly less than their gas or diesel fuel counterparts.
- 3. Ford does not manufacture any hybrid pickup trucks.
- 4. The staff was unable to locate any state grants or manufacturer rebates that would apply to the purchase of an electric truck itself. Rather, they only applied to electric charging stations for electric vehicle fleets.

The gas-powered truck comes with a 3.5-liter Fuel Efficient Vehicle (FEV) EcoBoost engine that has 30% better fuel efficiency and 15% fewer greenhouse emissions. It will be purchased at a competitive price from Downtown Ford in Sacramento through the state CMAS program.
